## **1.0 INTRODUCTION**

The Version Description Document (VDD) identifies the exact version of the National Aeronautics and Space Administration (NASA) Training and Development System (NTDS) released for installation/implementation.

### **1.1 Identification of the Release**

This software release is identified as NTDS, Release 2.6 and has an effective release date of October 18, 1996. Support of the previous release expires 30 days after the scheduled implementation date of November 29, 1996.

### **1.2 Purpose of the Release**

The purpose of this release is to incorporate system modifications per the Change Control Requests (CCR's) listed in appendix E.

### **1.3 Scope**

This VDD provides the functional and technical user of NTDS with information regarding the contents, status, and structure of Release 2.6, including the following:

- Changes implemented since release 2.5.0.
- Validation procedures to ensure the reliability of release changes.
- References to other documentation affected by this release.
- Detailed software installation instructions.

A waiver for element naming standardization for new NTDS files has been granted by NASA Headquarters. No other waivers are associated with this release.

### **1.4 Contact Points**

Sustaining Engineering for NTDS is provided through the NACC Technical Services Center located at Marshall Space Flight Center (MSFC). Questions regarding the function and/or the technical aspects as well as the installation of this release should be directed:

The NACC Technical Support Center (Use following Key Words: SESAAS & NTDS)

Telephone: (205) 544-6673  
CCMail: nathalyne.cucarola@msfc.nasa.gov  
FAX: (205) 544-1836

## **2.0 FUNCTIONAL INFORMATION**

This section includes details regarding functional changes, functional interfaces, critical issues, affected documents, and application system administration.

### **2.1 Functional Changes**

Please refer to Appendix C, Functional Change Validation Procedures, for a description of all functional changes related to this release. Appendix D, Installation Procedures, describes all Software PREDICT and SYSERR changes related to this release.

### **2.2 Functional Interfaces**

This release has no functional impact on interfaces with any Automated Information Management (AIM) application.

### **2.3 Critical Issues**

This release has no critical issues.

### **2.4 Affected Documents**

The following documents are affected by this release:

- NTDS SRS
- NTDS UOG

Above documents will be distributed under separate cover dated October 1996. They are effective only upon installation and operational use of this release.

### **2.5 Application System Administration**

Application system administration changes associated with this release are discussed in Appendix D, Installation Procedures.

File modifications are required with this release for the NTDS-PPMI file. This is documented in Appendix D, Installation Procedures.

### **3.0 TECHNICAL INFORMATION**

This section includes details regarding technical system interfaces, data dictionary changes, software object changes, and database administration activities.

#### **3.1 Technical System Interfaces**

This release has no technical impact on any other AIM application.

Refer to Appendix D for the technical details of the installation.

#### **3.2 Data Dictionary Changes**

A partial NTDS data dictionary is included in this release in PREDICT format. The information may be retrieved from the NTDS system file using standard tools provided by PREDICT. Two batch programs are provided in the BJS sub system to provide the user designed data dictionary reports.

Appendix D has a more complete description of the PREDICT changes for this release.

#### **3.3 Software Object Changes**

Modules affected by this release are included in appendix D, Section 2.2.

#### **3.4 Data-Base Administration**

This section describes the database administration activities for NTDS.

##### **3.4.1 Release DataSet Names**

The data sets for Release 2.6 are located on the AIM Central Distribution Facility as AIM data sets. The names of these datasets are included in the Introduction of appendix D.

##### **3.4.2 Inventory of Objects**

Refer to appendix D.

##### **3.4.3 Storage Considerations**

Appendix F contains recommended file specifications and space allocation information for the NTDS files. These are only recommended and may be changed by each site.

#### 3.4.4 Installation Procedures

Access the AIM dataset AIMS.NTDS.PROD.REL260.REL1096.DOC. This dataset is located on the AIM Central Bulletin Board, for the NTDS release README file, with its detailed software installation procedures. Appendix D of this document has the same installation instructions.

### 3.5 Operational Preparation

The AIM dataset AIMS.NTDS.PROD.REL260.REL1096.DOC with its NTDS release README file and Appendix D of this document have detailed instructions on operational preparation for installation of this release.

#### **4.0 KNOWN AND OPEN PROBLEMS**

There are no known and open problems for this release.

## **APPENDIX B**

### **GLOSSARY**

## **GLOSSARY**

### **Change Control Request**

A NASA standard form (NF-1620) on which requirement changes and discrepancies are reported (also known as a CCR).

### **Data Administration**

Responsibility for maintaining the data and application support architecture.

### **Data-Base Administration**

Responsibility for maintaining the physical database environment.

### **Development Installation**

A NASA site responsible for the development and implementation of an AIM application.

### **Implementation**

The process by which a NASA site installs an AIM software release and places it into operational use.

### **Operational Preparation**

Preparation by a NASA site for installation and use of an AIM application release.

### **System Administration**

Responsibility for administrative functions such as application security and table data maintenance associated with an AIM application.

### **Waiver**

A written authorization from the AIM program director for a Development Installation to deviate from a specific AIM standard or guideline in the implementation of an AIM software application; waivers may be permanent or temporary.

Details for the validation procedures are listed below:

### 1.0 CCR Number 94001792 Multiple Course Selection Capability

Existing capability allows user to choose only one course for review/processing at a time then returns the user to the IDP screen. It is desired to add the capability to select/review one or more courses from this screen.

#### Description of Enhancement

The IDP Course List Select screen for the Browse, Change, Add, and Delete options have been changed to allow the user to select one or more courses for processing.

#### Functional Impact

- Programs and screens were modified to permit user to select multiple courses/sessions for processing.

#### Validation Procedures

- Add Courses/Sessions

**NOTE: Steps 1 or 2 may be used to access an IDP to allow entry of the course/sessions information.**

1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.

3. Select option A to access the IDP Add (AIDP) process. Enter the required information to add an IDP. Proceed to step 5. Or,
4. Select option C to access the IDP Change (CIDP) process, enter the SSN and the DP/DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
5. Enter an 'A' to add courses/sessions. Press <ENTER>.
6. Verify that a list of the existing courses is displayed (IDP COURSE LIST SELECT). For an add process there may or may not be existing courses.
7. Enter an 'X' or ' ' in any SEL NUM field and press <ENTER>.
8. Verify that the IDP COURSE ADD screen is displayed. Enter new course and session information (one or more courses may be entered) press <ENTER>.
9. Verify that the course name, entry start and end dates and other displayed information is correct. Press <ENTER>.
10. Verify that the course information has been changed or added message is displayed. Press PF2 to complete the change process.

- **Browse Courses/Sessions**

1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
3. Select option B to access the IDP Browse (BIDP) process, enter the SSN and the DP/DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
4. Enter a 'B' to browse the courses/sessions. Press <ENTER>.
5. Verify that a selection list (IDP COURSE LIST SELECT) of the courses is displayed. Enter an 'X' in the SEL NUM field by each course that is to be displayed. Press <ENTER>.
6. Verify that the first selected course is displayed . Press PF2 to finish the browse process. After all selected records have been displayed you will return to the IDP COURSE LIST SELECT screen.
7. Press PF3 to return to the IDP CHANGE screen; press PF2 to complete the change process.

- **Change Courses/Sessions**

1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
3. Select option C to access the IDP Change (CIDP) process, enter the SSN and the DP/DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
4. Enter a 'C' to change the courses/sessions. Press <ENTER>.

5. Verify that a selection list (IDP COURSE LIST SELECT) of the courses is displayed.
6. Enter an 'X' in the SEL NUM field by each course that is displayed that you wish to change. Press <ENTER>.
7. Verify that the first selected course is displayed for change (IDP COURSE CHANGE). Enter the desired changes. Press PF2 to finish the change process. The next selected course is displayed for changes. Enter the desired changes and press PF2 to finish the change process. This step is repeated until all selected records are displayed for change.
8. Press PF3 to return to the IDP CHANGE screen; press PF2 to complete the change process.

- **Delete Courses/Sessions**

1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
3. Select option C to access the IDP Change (CIDP) process, enter the SSN and the DP/DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
4. Enter a 'D' to delete courses/sessions. Press <ENTER>.
5. Verify that a list of the existing courses is displayed (IDP COURSE LIST SELECT).
6. Enter an 'X' in the SEL NUM field for courses you wish to delete. Press <ENTER>.
7. Verify that the IDP COURSE DELETE screen is displayed. Press PF2 to confirm the deletion. You will return to the IDP COURSE LIST SELECT screen.
8. Verify that the message 'Course information has been deleted' is displayed. Press <ENTER> to continue deleting the remaining courses that were selected. Repeat step 5 until all selected courses are deleted.
9. Press PF3 to return to the IDP CHANGE screen.
10. Press PF2 to complete the change process.

## 2.0 CCR Number 94002741 Add Goals and Objectives to IDP

Add capability to maintain goals and objectives in the IDP.

### Description of Enhancement

The NTDS-IDP file was changed to include goals and objectives fields. The IDP add, browse, change, and delete processes and their corresponding screens were modified to provide users with the capability to maintain these fields. A new program was written to maintain the goals and objectives. The IDP Participant report program was modified to include goals and objectives, comments, and evaluation data in the printing of the online and batch IDP Participant reports.

### Functional Impact

- IDP processes will provide the capability to add, browse, change, and delete goals and objectives. The online and batch IDP Participant reports will include goals and objectives, comments, and evaluation data.

### Validation Procedures

- **Add Goals and Objectives**

1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
3. Select option C to access the IDP Change (CIDP) process, enter the SSN and the DP/DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
4. Enter an 'A' to add the goals and objectives. Press <ENTER>.

5. Verify that the ADD GOALS/OBJECTIVES screen is displayed.
6. Enter goals and/or objectives. Press PF2 to complete the goals/objectives add process.
7. You will return to the IDP CHANGE screen. Verify that the message 'Goals/Objectives have been added' is displayed.
8. Press PF2 to complete the IDP Change process.

**NOTE:** Goals and objectives also may be added during the IDP Add (AIDP) process.

- **Browse Goals and Objectives**

1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
3. Select option B to access the IDP Browse (BIDP) process, enter the SSN and the DP/ DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
4. Enter a 'B' to browse existing goals and objectives. Press <ENTER>.
5. Verify that the BROWSE GOALS/OBJECTIVES screen is displayed.
6. Press PF2 to complete the goals/objectives browse process.
7. You will return to the IDP BROWSE screen.
8. Press PF2 to complete the IDP Browse process.

**NOTE:** Goals and Objectives also may be browsed during the IDP Add (AIDP), IDP Change (CIDP), and IDP Delete (DIDP) processes

- **Change Goals and Objectives**

1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
3. Select option C to access the IDP Change (CIDP) process, enter the SSN and the DP/ DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
4. Enter a 'C' to change the goals and objectives. Press <ENTER>.
5. Verify that the CHANGE GOALS/OBJECTIVES screen is displayed.
6. Enter the changes to the goals and/or objectives. Press PF2 to complete the goals/objectives change process.
7. You will return to the IDP CHANGE screen. Verify that the message 'Goals/Objectives have been updated' is displayed.
8. Press PF2 to complete the IDP Change process.

- **Delete Goals and Objectives**

1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
3. Select option D to access the IDP Change (CIDP) process, enter the SSN and the DP/ DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
4. Enter a 'D' to delete the goals and objectives. Press <ENTER>.
5. Verify that the 'DELETE GOALS/OBJECTIVES' screen is displayed.
6. Press PF2 to complete the goals/objectives deletion process. Verify that a pop-up window is displayed for confirmation of the deletion. Enter a 'Y' to confirm the deletion. Press <ENTER>.
7. You will return to the IDP CHANGE screen. Verify that the message 'Goals/Objectives have been deleted' is displayed.
8. Press PF2 to complete the IDP Change process. Verify that the message 'Record has been updated' is displayed.

**NOTE:** Goals and Objectives also may be deleted during the IDP Change (CIDP) process.

- **IDP Participant Report**

1. Using the IDP Participant process (RPTPIDP), enter the SSN and the DP/DP Cat/DP Subcat code combination for an existing IDP participant. Enter a '1' for RELEASE REPORT to obtain the online IDP Participant report, or enter a '2' to obtain the batch IDP Participant report.
2. Press PF2 to execute the online or batch IDP Participant report.
3. The online IDP Participant report will execute immediately. Verify that the IDP participant's existing goals and objectives, comments, and evaluation data are included in the report.
4. The batch IDP Participant report will involve additional steps. A pop-up window will be displayed. Enter the required Natural Password, submission preference, and printer destination. Press <ENTER>. An additional pop-up window will identify the job number and either submitted or scheduled status of the job. Press <ENTER>.
5. After the batch job has executed, view the job output in the installation's output queue. Verify that the IDP participant's existing goals and objectives, comments, and evaluation data are included in the report.

### 3.0 CCR Number 96000309 IDP Grade Point Average (GPA) Display

In the IDP, the current GPA field should show the computed average GPA for completed courses with academic credit.

#### Description of Enhancement

The IDP browse, change, and delete processes were modified to compute the average GPA for completed courses with academic credit.

#### Functional Impact

- IDP browse, change, and delete processes will display the computed average GPA for completed courses with academic credit.

#### Validation Procedures

- **Compute GPA**
  1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.

2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
3. Select option C to access the IDP Change (CIDP) process, enter the SSN and the DP/ DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
4. Enter an 'A' to add a course/session. Press <ENTER>.
5. Verify that the IDP COURSE LIST SELECT screen is displayed. Press <ENTER>.
6. Verify that the IDP COURSE ADD screen is displayed. Enter the fiscal year, course code, and session number for an existing course that has been designated for academic credit and has credit hours assigned to it. Press <ENTER>.
7. Enter a 'Y' to include the course in the GPA calculation (USE CAL GPA). Press <ENTER>.
8. Press PF2 to complete the course/session add process.
9. You will return to the IDP CHANGE screen. Verify that the message 'Course information has been added' is displayed.
10. Press PF2 to complete the IDP Change process.
11. Using the Training History Add (ATH) process, enter the SSN for the IDP participant. Press <ENTER>.
12. On Page 1 of the Training History Add Training Instance screen, enter the course and session. Press <ENTER>.
13. On Page 2 of the Training History Add Training Instance screen, enter a grade for the course and session. Press <ENTER>.
14. Press PF2 to add the Training History record.
15. You will return to the TRAINING HISTORY ADD screen. Verify that the message 'Record has been added' is displayed.
16. Using the IDP Browse (BIDP) process, enter the SSN and the DP/ DP Cat/DP Subcat code combination for the IDP participant. Press <ENTER>.
17. Verify that the Current GPA field reflects the grade for the course and session that were added for the IDP participant.
18. Using the IDP Change (CIDP) process, enter the SSN and the DP/DP Cat/DP Subcat code combination for the IDP participant. Press <ENTER>.
19. Verify that the Current GPA field reflects the grade for the course and session that were added for the IDP participant.
20. Using the IDP Delete (DIDP) process, enter the SSN and the DP/DP Cat/DP Subcat code combination for the IDP participant. Press <ENTER>.
21. Verify that the Current GPA field reflects the grade for the course and session that were added for the IDP participant.

#### 4.0 CCR Number 96000310 Modify IDP Course Change Edits

When adding IDP Course information, an informative message should be displayed when you try to enter a course that is already a part of another IDP belonging to the same participant. This is currently not working. When you select the option to add additional courses, the courses associated with the IDP should be displayed, allowing you to add new course information while viewing existing course information. PF6 RTRV does not work.

##### Description of Enhancement

The IDP Course List Select screen for the Browse, Change, Add, and Delete options has been changed to allow the user to select one or more courses for processing. The PF6 RTRV is no longer displayed.

##### Functional Impact

- Programs and screens were modified to permit user to select multiple courses/sessions for processing.

##### Validation Procedures

- **Add Courses/Sessions**
  1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
  2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
  3. Select option C to access the IDP Change (CIDP) process, enter the SSN and the DP/DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
  4. Enter an 'A' to add courses/sessions. Press <ENTER>.
  5. Verify that a list of the existing courses is displayed (IDP COURSE LIST SELECT). For the add process there may or may not be existing courses.
  6. Enter an 'X' or ' ' in any SEL NUM field and press <ENTER>.
  7. Verify that the IDP COURSE ADD screen is displayed. Enter new course and session information (one or more courses may be entered before pressing the PF2 key). Press PF2 to complete the add process.
  8. Press <ENTER> to return to the IDP CHANGE screen; press PF2 to complete the change process.
  9. Repeat steps 3 and 4. Enter a course that is already associated with the IDP.
  10. Verify that message 4407 'Duplicate Course FY/Code/Sessions are highlighted' is displayed. Press PF3 to return to the IDP Change Screen.

- **Change Courses/Sessions**

1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
3. Select option C to access the IDP Change (CIDP) process, enter the SSN and the DP/DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
4. Enter a 'C' to change the courses/sessions. Press <ENTER>.
5. Verify that a selection list (IDP COURSE LIST SELECT) of the courses is displayed.
6. Enter an 'X' in the SEL NUM field by each course that is displayed. Press <ENTER>.
7. Verify that the first selected course is displayed for change (IDP COURSE CHANGE). Enter the desired changes. Press PF2 to finish the change process. If more than one course was selected, the next selection will be displayed for you to enter changes, enter desired changes and press PF2 to process. Repeat this step until all selected courses have been displayed for change.
8. Press PF3 to return to the IDP CHANGE screen; press PF2 to complete the change process.

## 5.0 CCR Number 96000311 Modify Software to Conform to SRS

IDP course change no longer satisfies the business process. You should ~~not~~ be able to change course session dates. Permit user to change course session number instead of course session dates.

### Description of Enhancement

The IDP COURSE CHANGE screen has been modified to prevent user entry of the course code and course start and end dates. To change a course code

associated with an IDP you should use the Delete (DIPD) and Add IDP (AIDP) processes. Users may change the session associated with an existing course code.

### **Functional Impact**

Programs and screens were modified to permit users to enter a new session for an existing course.

### **Validation Procedures**

- **Change Courses/Sessions**

1. From the NTDS Main Menu select option E, Development Programs. Press <ENTER>. Verify that the Development Programs menu is displayed.
2. From the Development Programs menu, select option B, IDP. Press <ENTER>. Verify that the IDP menu is displayed.
3. Select option C to access the IDP Change (CIDP) process, enter the SSN and the DP/DP Cat/DP Subcat code combination for an existing IDP participant. Press <ENTER>.
4. Enter a 'C' to change the courses/sessions. Press <ENTER>.
5. Verify that a selection list (IDP COURSE LIST SELECT) of the courses is displayed.
6. Enter an 'X' in the SEL NUM field by the course you wish to change. Press <ENTER>.
7. Verify that the selected course is displayed for change (IDP COURSE CHANGE).
8. Enter the desired session number. Press <ENTER>. If the entered session does not exist for the course you will receive message 4415 'Invalid Session Number for this Course Code'. Verify that the start and end dates for the invalid course code are blank. Press PF3 to return to the previous screen.
9. Select another course for change. Press <ENTER>.
10. Verify that the selected course is displayed for change (IDP COURSE CHANGE).
11. Enter a valid session number for the course. Verify that the start and end dates for the session are displayed. Press PF2 to process the change. You will return to the IDP COURSE LIST SELECT screen.
12. Press PF3 to return to the IDP CHANGE screen.
13. Press PF2 to complete the change process.

# **INSTALLATION INSTRUCTIONS AND CHECKLIST FOR NTDS RELEASE**

## **Introduction**

Release identification:

System Name	NASA Training and Development System (NTDS)
Release Number	2.6
Release Date	October 18, 1996
Release Effective Date	Effective date for this release is October 18, 1996.

Release Implementation Date November 29, 1996

The following datasets are located on the AIM Central Distribution Facility as AIM data sets.

- AIMS.NTDS.PROD.REL260.REL1096.PRD
- AIMS.NTDS.PROD.REL260.REL1096.SRC
- AIMS.NTDS.PROD.REL260.REL1096.ERR
- AIMS.NTDS.PROD.REL260.REL1096.DOC

Person to notify in case of installation problems:

Nathalyne Cucarola	(205) 544-8424
Rick Bishop	(205) 544-5352
FAX Number	(205) 544-1836

## **Installation Sequence**

Installation is to occur in the following sequence:

- 1.0 Backups
- 2.0 Copy Source/Object Code
- 3.0 Pre-PREDICT Data Conversion
- 4.0 PREDICT Installation
- 5.0 Catalog Source Code
- 6.0 Post-PREDICT Data Conversion/Load
- 7.0 Perform Release-Specific Installation Procedures
- 8.0 Installation Checklist for NTDS Release 2.6

### **1.0 BACKUPS**

It is advisable to back up all NTDS files as a precautionary measure prior to installation.

## 2.0 COPY SOURCE/OBJECT CODE

### 2.1 Copy Source Code

Load the NTDS source library from dataset AIMS.NTDS.PROD.REL260.REL1096.SRC using the Natural utility NATLOAD. The source programs were unloaded using the Natural utility NATUNLD. The programs will be loaded to the application library NTDS, replacing any existing programs of the same name. The source module counts included in this release are listed below:

<b>Natural Source Modules by type</b>

### **Deleted Modules**

The following modules were provided for file conversion for release 2.5 and may be deleted.

1. INSBCRS1
2. INSBCRS3
3. INSBDP1
4. INSBDP3
5. INSBR250

### **2.3 Copy Object Modules**

Not applicable with this release.

### **3.0 PRE-PREDICT DATA CONVERSION**

Not applicable for this release.

### **4.0 PREDICT INSTALLATION**

The NTDS-PPMI file and NTDS-IDP userview were modified. DDMs for NTDS-PPMI and NTDS-IDP will need to be regenerated and ADABAS file layout will need to be updated.

These files can be viewed in PREDICT or Appendix H of the Release 2.5 SRS.

#### 4.1 NTDS Keywords

PREDICT keyword NTDS-2.6 is included in the PREDICT dataset.

#### 4.2 Load NTDS PREDICT

Use SYSDICBE to load NTDS dictionary data into PREDICT using file AIMS.NTDS.PROD.REL260.REL1096.PRD.

The PREDICT object counts for NTDS are as follows.

<b>PREDICT Objects by type</b>	
Standard File	1
Physical Files	1
User-Views	2
Data Fields (including 828 in the Z file)	1130
Program Desc	0

#### 4.3 Generate Data Definition Modules

Generate the DDMs for NTDS-PPMI and NTDS-IDP. Change the ADABAS file layout for NTDS-PPMI (file number 28).

## **5.0 CATALOG SOURCE CODE**

Run a batch job to catalog (CATALL) all modules in the NTDS or other named library. It is not necessary to catalog the Global Data Area. The AIM Batch standard parameters should be used for the compile.

After objects are compiled, the NTDS application will run under the AIM Online standard parameters.

## **6.0 POST-PREDICT DATA CONVERSION/LOAD**

There is no data conversion for NTDS-IDP.

## **7.0 PERFORM RELEASE-SPECIFIC INSTALLATION PROCEDURES**

The following sections are Release-Specific Installation Procedures needed for this release.

### **7.1 Load NTDS Error Messages into SYSERR**

NTDS error messages use the System Error Utility SYSERR. To load NTDS error messages, use the ERRLODUS utility supplied with SYSERR. Error messages will be associated with library NTDS. The dataset AIMS.NTDS.PROD.REL260.REL1096.ERR is used as input to this utility as work file 2. For additional information concerning SYSERR, refer to the Natural 2 Administrator's Manual.

This release contains 5 new error messages.

- 4093 - Goals/Objectives do not exist
- 4094 - Goals/Objectives already exist
- 4191 - Goals/Objectives have been added
- 4192 - Goals/Objectives have been updated
- 4193 - Goals/Objectives have been deleted

### **7.2 Update Release Number**

Log on to NTDS library and execute program NTDP-REL on the Natural Command line. Enter the release number as 02.60.00 and press <ENTER>.

From the Natural command line, execute program BJSP-REL. Enter the release number as 02.60.00 and press <ENTER>.

### **7.3 Update NTDS Menu and Expert Commands**

There are no new menu options or expert commands associated with this release.

#### **7.4 Perform NTDS Batch Job Submitter (BJS) Maintenance**

There are no new Job or Task records for BJS associated with this release.
